#### MONEY, BONDS AND STOCKS.

A Quiet and Dull Market in New York, the General List Being Feverish. NEW YORK, Oct. 26.-Money was easy at 11 to 2 per cent, the last loan being made at 2.

Prime mercantile paper, 42 26 per cent. Sterling exchange was quiet and weak, with actual business at \$4.83? for 60-day bills and

\$4.87 for demand. The total sales of stocks to-day were 192,105 shares, including the following: Delaware, Lackawanna & Western, 7,000; Erie, 4,730; Lake Shore, 12,483; Missouri Pacific, 5,621; Northwestern, 8,900; Northern Pacific, preferred, 8,157; Reading, 20,200; Richmond & West Point, 24,574; St. Paul, 17,405; Union Pacific, 27,076;

Western Union, 76,050. The stock market to-day was not materially different from its immediate predecessors, being quiet to dull, except for the few leading stocks,

while the general list was somewhat feverish within the narrowest limits and almost totally devoid of feature. There was some buying for foreign account, which was chiefly confined to Union Pacific and Lake Shore, but this influence was offset by the continued selling of the Boston stocks, which was most noticeable in Union Pacific and New England, though it was much smaller than for some time past. The valuerable spot in the list was found to be the Richmond & West Point stocks and those of the dependent roads, the depressing influence being the number of rumors in regard to the further issue of collateral trust bonds, as to which no less than three different re told upon the street, with no official information to be had in regard to the real in- follows: tentions of the company. These influences were the only relief to an otherwise extremely dull and uninteresting market, notwithstanding that a few other stocks, as the grangers and coalers, displayed some animation. The feeling at the opening of business was conservatively bullish, but the duliness invited the attacks of the "bears," and after a steady opening, Union Pa-cific, Reading and New England yielded fractionally, while the movements in the rest of the list were extremely narrow, with the excep-tion of Richmond & West Point preferred, which dropped suddenly 2 per cent. The pressure was suddenly removed, however, and prices recovered almost as quickly as they recoded, and before noon the general list was, in most cases, fractionally higher than the opening figures. Then followed a long period of duliness and absolutely featureless trading, in which the movements were alternately upward and downward, with no apparent inclination in either direction. The market closed dull and steady at insignificant changes from the opening figures, though advances are in a majority this evening. Pullman was exceptional in losing I per cent. to-day, but Delaware & Hudson and Lake Erie & Western preferred rose I per cent., and most of the others fractional amounts.

The railroad bond market was still quiet and without feature to day, the total sales of all issues aggregating only \$1,060,000, which was very evenly distributed among a somewhat smaller number of issues than usual of late. The tone of the market remained steady, but there were some irregular changes among the inactive issues. There was a decline in Indiana,

Bloomington & Western second certificates, 2, at 63: New York & Northern seconds, 2, at 55: Iron Mountain fives, 3, at 854, and Great Western firsts, 24, at 111. Government bonds were dull and steady. State bonds were dull and without feature.

CHICAGO, Oct. 26.—A good business was transacted in wheat, and are feature of the market was the existing stree ath. Higher prices were again paid, and the mar, ket is rapidly near-ing the high-water mark of a 1 ow days ago. The conditions were absolutely the same as have existed for the past few days. The opening was firm and lælie higher than yeste rday's closing, ruled irregular, reaching a point 11 22 so above, and closing weak at lie higher for December, and ic higher for May. Higher prices were predicted for next week by the trade who has figured so prominently of late in the market. The firmness of the market in the North west helped fortify the belief in higher prices. There was only a moderate degree of speculative activity in corn, though the volume of transactions was very fair. The prevailing feeling was one of steadiness, if not rather firmer than yesterday. Opening sales were into lower than the closing figures of yesterday, but the market sold off on free offerings ic, reacted ic, and closed with October and November into a discontent in the reacted in the closed with October and November into a discontent in the reacted into the reacted in the reacted May, however, the market ruled dutl. #### DUN & CO.'S BUSINESS REVIEW.

An Increase in Bank Clearings Caused by Speculation-A Season of Activity at Hand. NEW YORK, Oct. 26.-R. G. Dun & Co.'s weekly review of trade says: Outside New York there is a general increase in bank clearings over last year of about 12 per cent; but substantially the entire increase of 20 per cent. at Boston may be traced to unusual speculation in stocks; probably the gains of 7 per cent. at Philadelphia and 41 per cent. at San Francisco are mainly of the same nature; and the speculation in wheat and other products swell exchanges at Chicago and St. Louis. At New York, on the other hand, a decrease of 10 per cent. appears, which the difference in speculative activity does not fully explain.

At all ports, the imports for the month of September were \$1,900,000 smaller than last year, while exports were \$3,400,000 smaller, so that the excess of imports over exports of merchandise was only \$2,249,824. But prices of breadstuffs do not so yield as to promise a free movement, and the excess of imports over ex-ports for the past eight months has been more than \$94,000,000. The inquiry for good American securities has not ceased in Europe. An advance in west-bound rates is announced for Oct. 26, ranging from one-third for the lower to onehalf for the higher classes, but the east-bound traffic is still in unsatisfactory shape. The purchase of the Georgia Central by the Richmond Terminal looks toward a continuance of consolidations, but the unwelcome fact remains that expenses generally increase more than earnings. Remarkable activity in the stock ' market, one way or the other, is generally expected soon

after the election. The collapse of the lead combination and failure of the chief speculator has increased the distrust of other speculative movements which disregard legitimate considerations.

A slight advance in cotton and a rise of to in leather are the chief changes in the other direc-tion. The general level of all prices settles downward, in spite of the continued expansion of the circulation, having declined about 1 per The iron market is less firm, though still of

the waiting sort, but there are intimations that less than \$28 has been accepted for rails. The coal trade also shows signs of weakness, while the output for the last week reached 968,540 tons, and the accumulation of stocks se ms

In woolen and cotton manufactures no change is noted; but, although dry goods transactions

are called irregular, symptoms of a better demand are reported. Less trade activity is noted at Pittsburg. a quiet trade and slow collections at Memphis. and slower collections at St. Paul, with more careful scrutiny of accounts by jobbers. At Cleveland, too, manufacturing is rather hesitant, and the money market tends toward stringency. Considerable liquidation appears at Atlanta, but increased cotton receipts give promise of greater activity there and at Memphis. The treasury continues to supply the market liberally with funds, having paid out during the past week \$1,500,000 more than it has taken in.

the excess being in silver certificates. The business failures for the week number 254, as against a total of 224 last week, and 227 the week previous. For the corresponding week of last year the failures were 216.

#### INDIANAPOLIS MARKETS.

Trade Fairly Active, with a Firm Tone Prevailing in Prices on Most Lines of Goods. INDIANAPOLIS, Oct. 26. In most departments little complaint is heard of the volume of business or of the manner retail merchants are meeting their bills, and there is a confidence in the future of trade which argues well. It is settled that two of Indiana's favorite crops are to yield handsome returns to the farmers. The corn crop is large, and the hog crop, while not as large as usual, bids fair to bring much better prices than last year. Grocers

report trade fair and prices on most articles firm. Reports from the East, however, show an easier tone to sugars, but prices in this market have not been affected. Coffees maintain their strong tone. Mackerel are scarce and higher. Leather dealers report trade good and prices firm, while hide men are handling more kides than usual at this season of the year. although prices continue weak in the East, and there is consequently no improvement in that direction in the West. The wool market is duil and prices are unchanged, but with the coming in of November a better market is looked for. The produce markets were moderately active today. Apples, on large receipts, continue to rule weak in price, common frutt selling as low as 25 cents per bushel from the car. Potatoes are arriving more freely, but prices are steady, a good many now selling to grocers for winter storage. Onions are plenty and cheap. Poultry is steady. Butter and eggs are in active demand at our best quotations. Lemons are in light demand and in light supply, but ample to meet all requirements. Oranges are coming in more

GRAIN. The following will show the actual transactions on 'Change, yesterday, with various fluctuations in prices:

freely, and prices are a shade easier. Other

markets are featureless,

Just Like Men. The members of the national convention of the Woman's Christian Temperance Union fell out and had an awful time, just like real men.

September, October, Thanksgiving and Christmas numbers of Ladies' Home Journal and Practical Housekeeper, third of a year, ten cents; at the news-stands, six cents a number, which is so cheap that they who don't buy it are slow to believe how good it is.

The million makes it cheap. We have printed nearly a million this month, expect to print a full million next and the next.

What then? Do you know how many a million is. Count a thousand a thousand times. Send it in silver or stamps.

LADIES' HOME JOURNAL, Philadelphia.

#### GRATEFUL-COMFORTING. EPPS'S COCOA BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of wells selected Cocos. Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to seist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack when ever there is a weak point. We may escape many fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Or Service Gazette.
